ABSTRACT

Statistics about public and association libraries in New York State are compiled from information supplied by libraries and systems throughout the state. The following tables provide information about the 734 libraries in the systems and the 2 that are not system members: (1) Comparative Study; (2) System Summary (including Public Outlets); (3) System and Nonsystem Statistics (general, financial disbursements, and financial receipts); (4) System and Nonsystem Statistics by Population Served; (5) New York Public Libraries and Public Library Standards Comparison Chart; (6) System and Nonsystem Statistics Related to Proposed Library Standards; (7) Library Types by Population Served; and (8) Library Types by Public Library Systems. Six appendixes contain the annual report forms and instructions, codes of sections of two tables, keys to abbreviations, an index of counties, and an index of libraries. (SLD)

PUBLIC LIBRARY SYSTEMS

PREFACE

1991 PUBLIC AND ASSOCIATION LIBRARIES STATISTICS is compiled from information supplied by public libraries and systems throughout New York State. Forms were sent by the New York State Library's Division of Library Development to the designated systems and libraries in November 1991 with the request for return by February 1, 1992. Ninety percent of the completed forms were returned by April 17, 1992, and the last report was received on June 19, 1992. Data were verified at system headquarters and at the Division of Library Development. The data were compiled on the Division of Library Development computer and the printouts thereof constitute statistical tables II, IIA, III, IV, V, VI, VII and VIII.

Statistics for the 734 libraries in systems and for the two libraries which are not members of systems are grouped by system in Table III. To help the user locate information on specific libraries, indexes of counties and libraries appear in appendices. Summaries of the 1991 statistics appear in Table II and are compared with those of earlier years in Table I.

Education Law and *Commissioner's Regulations* require the submission of annual reports by all libraries and systems in order that they retain their registration status and be eligible for public funding. It is our hope that the publication of these statistics will be helpful to library administrators and staff, to members of governing boards, and to others who make decisions on library resources and services.

We thank all persons who supplied information and all who assisted in verifying, checking and compiling it. Accuracy is critical to the usefulness of this publication and notes of omission and errors are invited.

Fall 1992

FOREWORD

"Libraries can be understood in many ways; by working in them, by visiting them, and by reading verbal and numerical descriptions of them. Numerical or statistical descriptions condense factual information about many aspects of library operations and present the information in a variety of ways, each providing a different view of the total library picture."¹

This publication, *1991 Public and Association Libraries Statistics*, presents statistical pictures of New York State public libraries and public library systems during the calendar year 1991. The information is derived from the 1991 Annual Report for Public Libraries and Annual Report for Public Library Systems forms.

Statistics should be seen by librarians and trustees as tools and not as ends in themselves. The value of the statistics published here is that they can be used both internally and externally by the library's administration. Internally, the library's individual statistics can be compared to previous years' statistics as a way to track performance, to assess the success of the library's chosen goals, to set new service and management objectives, or to keep the library headed in its chosen direction. Externally the library's statistics can be compared to other libraries of similar size and environment to determine whether the library is above or below the average for its systems or population group, to justify library actions and budgets, to plan for library service, and to evaluate the library's progress.

Three statistical pictures of public libraries are presented in this publication:

1. Statistics for libraries grouped by library system or nonsystem.

Tables III A,B,C present facts about library operations for each public library in New York State including resources, use, and finances. Libraries are grouped by library system, then by county within each library system. Statistics for all branches and other outlets are included within the statistics for the main library.

2. Statistics for all libraries and library systems grouped by size of population chartered to serve.

Table IV lists selected facts about library operations and finances by size of population served, from largest to smallest.

3. Statistics related to proposed library standards.

Tables V and VI provide statistics on whether public libraries meet the 1988 proposed minimum public library standards. Libraries are grouped by library system or nonsystem.

1. Portions of this section are adapted from *Illinois Public Library Statistics: A Guide for Librarians and Trustees, 1989-90*.

Public Libraries

The number of public libraries in New York State increased from 740 to 741 in 1991. The number of branch libraries totalled 338. Of these 741 chartered libraries, 739 are members of the 23 public library systems. Most public libraries in the State are small, as shown in the following table:

Number of Public Libraries By Population Served, 1991			
Population Size Served	# Of Libraries	# Of People Served	% Of Total Population Served
0-999	86	49,152	.3%
1,000-2,499	162	267,636	1.5%
2,500-4,999	129	460,544	2.6%
5,000-7,499	87	531,798	3.0%
7,500-24,999	168	2,413,615	13.4%
25,000-99,999	97	4,141,438	23.0%
100,000+	12	9,866,432	54.8%
TOTAL	741	17,730,615	

Some 63 percent of the libraries (464) in the State serve a population of fewer than 7,500 people. In the aggregate, these 464 libraries service 1.3 million people, or 7.3 percent of the State's population. On the other hand, three libraries - the Brooklyn, The New York and the Queens Borough public libraries - serve more than 40 percent of the population of the State.

In 1991, the total public library operating expenditure in New York State was \$533 million. The main financial support for public libraries in New York State comes from local public funds (\$393.9 million in 1991). The average per capita expenditure for public library service (including that for public library systems) in 1991 was \$29.60.

New York State Public Library Income 1991			
	Income (in millions)	Percent	Per Capita
Local	\$394.0	72%	\$21.90
State	\$ 59.0	11%	3.28
Federal	\$ 5.8	1%	.32
Other	\$ 88.1	16%	4.90

The Regents of The University of the State of New York charter (i.e., incorporate) the public libraries. A library serves a village, town, city, county, school district, a combination of these units, or in exceptional cases, a special library district established by the Legislature. Tables VII and VIII give a breakdown of library types by population served and by public library system. The four major types of public libraries in the State are:

Municipal Created by a village, town, city or county government or combination thereof.

Association Created by a membership association. May contract with a unit of government or a school district to provide library services.

School district Created by vote of the school district electorate or a city board of education.

Special district Created by the State Legislature to serve a part of one or more municipalities.

Public Libraries by Type, 1991		
	Number	Percent
Municipal	210	28%
Association	387	53%
School District	129	17%
Special District	15	2%
TOTAL	741	100%

Public Library Systems

The 23 public library systems authorized by *Education Law* have as members all but two of the 741 public libraries in the State. Five of the public library systems (Brooklyn, Buffalo and Erie, The New York Public, Onondaga, and Queens) are public libraries as well as public library systems. The Board of Regents charts the public library systems, which operate under plans of service approved by the Commissioner of Education.

State support for public library services is made available through the 23 public library systems. In 1991, reported State aid was \$59.0 million. There are four types of public library systems in New York State:

Consolidated systems (3) Chartered as a single entity under a board of trustees (Brooklyn, The New York Public Library, Queens Borough).

Federated systems (4) Created by action of the board or boards of supervisors or legislature of the county or counties involved while member libraries retain their own charters (Buffalo & Erie, Clinton-Essex-Franklin, Monroe County and Onondaga County).

Cooperative systems (15) An association created by agreement of the boards of chartered member libraries, which retain their autonomy.

Co-federated systems (1) System formed through confederation of systems of different types (Chemung-Southern Tier).

Table II, *System Summary*, provides a summary of facts on the resources, financial support and use of public library services for each public library system and its member public libraries.

Comparative Studies

Table I, *Comparative Study* provides statewide summary data on public library services from 1957, 1989, 1990 and 1991 for comparison purposes. This table may be used to analyze increases and decreases in resources, financial support and use. Each edition of *Public and Association Library Statistics*, from 1966 to the present, contains comparison figures for the current reporting year, the two prior years and 1957. Further information on public library statistics is available from the Division of Library Development, New York State Library, 10C50 Cultural Education Center, Albany, New York 12230.

REFERENCE NOTES

TABLE I

All 1957, 1989, and 1990 figures were taken from Table I, *Comparative Study, Public and Library Association Statistics*, for designated years. The year 1957 is used as the base year since this is the year preceding the 1958 State Aid Law, which provided for the establishment of the cooperative systems comparison.

The figures for "Population Served by Systems and Nonsystem Libraries" are taken from the *1990 Census of Population and Housing, Summary Population and Housing Characteristics, New York*, issued March 1991, U.S. Department of Commerce, Bureau of the Census; school district populations as submitted by libraries and library systems in 1992.

State Aid excludes administrative costs of the New York State Library.

Adjusted Disbursements exclude Cash Grants to member libraries from the system, Total Disbursements and disbursements for Contracts With Other Libraries from system and member library Total Operating Disbursements.

TABLES V & VI

Table V, *New York State Public Libraries and Public Library Standards - Comparison Chart* and Table VI, *System & Nonsystem Statistics Related to Proposed Library Standards* reflect data supplied by 741 public libraries in relation to proposed standards. The data in Table V represent overall progress in meeting 1988 proposed standards for public libraries. It is important to note that for the purposes of this compilation a "nonresponse" was treated as a "no" response. More information on each of the proposed standards can be found in *New York State Public Library Service Minimum Standards, 1988*.

GENERAL

Brooklyn, New York, and Queens Borough include both system headquarters and branch libraries or central library on all tables.

Ulster County is served jointly by Ramapo-Catskill and Mid-Hudson Library Systems.

Central Libraries are designated by an asterisk (*) and Co-Central libraries by a double asterisk (**) on all tables.

A catastrophic flood closed the Newburgh Free Library from mid-October 1990 until mid-May 1991.

A fire closed the Sodus Free Library from July 7, 1991 to September 23, 1991.

A chart which summarizes the changes made for the 1991 Tables is included for easy reference.

ANNUAL REPORT FORMS AND INSTRUCTIONS, PUBLIC LIBRARIES

THE STATE EDUCATION DEPARTMENT / THE UNIVERSITY OF THE STATE OF NEW YORK / ALBANY, N.Y. 12230

NEW YORK STATE LIBRARY
DIVISION OF LIBRARY DEVELOPMENT

November 29, 1991

TO: Directors of Public Library Systems

FROM: Roberta G. Cade

SUBJECT: *1991 Annual Report of Public Libraries* mailing

Beginning on Friday, November 29 Library Development staff are mailing to your system the following items:

1. Forms and instructions for the *1991 Annual Report of Public Libraries* for distribution to your member libraries.
2. A list of member library/library system balances.
3. Pages from the *1990 Census of Population and Housing, Summary Population and Housing Characteristics, New York, CPH-1-34* which apply to your system.

As always, we appreciate your assistance in helping member libraries determine their 1990 population based on the official 1990 census data. This year in particular, those libraries which serve a school district and those libraries which are not coterminous with political boundaries will need your assistance in determining an appropriate 1990 population.

Official school district populations for the 1990 Census are projected to be available by 1993. Until such time as official school district populations are available, a library which serves a school district *"may determine an appropriate 1990 population for the school district which will be acceptable to both the system director and the member library director."* (Please note there were changes in the definitions for POPULATION CHARTERED TO SERVE printed in the member library 1991 INSTRUCTIONS. The changes are outlined in the cover memorandum to "Directors of Public Libraries" and are a result of recent information obtained about the availability and use of 1990 census data).

Please also note that the total of populations of charter service areas of a county may not exceed the 1990 official county population except in those rare instances where there are overlapping charter service areas. All per capita State Aid will be paid to systems based on county final counts in the *1990 Census of Population and Housing, Summary Population and Housing Characteristics, New York, CPH-1-34*. Any per capita system cash grants paid to member libraries will be determined internally by negotiations between the system headquarters and the membership.

Enclosed in your system's mailing is the list showing the final verified balances from the *1990 Annual Report* for various categories of holdings, cash balance in operating fund, and cash balance in capital fund for your system and for your member libraries. These figures should be used to start the *1991 Annual Report* under the appropriate January 1, 1991 headings. If for any reason there is a difference in any of these balances between this listing and the *1991 Annual Report*, a letter of explanation must be appended to the *Annual Report*.

The list also contains a column "*Type and Area Served*" for each member library and a column containing 1980 official populations currently on file in Library Development. The key to interpreting the two digit numerical type/area code is as follows:

First number - Type of library

- 1 = Association
- 2 = Public

Second number - Area served

- 1 = Town
- 2 = Village
- 3 = City
- 4 = School District
- 5 = County
- 6 = Special Legislative District
- 0 = Other (Fire District, Voting District, Other)

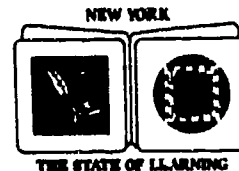

Please verify the "type and area served" data returned to you by each member library. If there is a difference in "type and area served" information, a letter of explanation must be appended to the *Annual Report*.

Also, please verify that member libraries have correctly updated 1980 populations to appropriate 1990 populations. For school district libraries and libraries which are not coterminous with political boundaries, please attach a letter of explanation identifying the agreed upon 1990 population figure and identify the source(s) of the 1990 population figure. The letter should be signed by both the member library director and the system director.

The *Annual Reports* should be submitted without delay, as they are the official source of figures for State Aid payments. More than ever before, your assistance in checking member reports is needed. Division staff available to work on annual reports and state aid payments has decreased 50% in the past year. Without your assistance, our very limited staff would be completely overwhelmed with verification problems. Please accept our sincere thanks for this cooperative annual effort.

The *1991 Annual Report of Public Library Systems* (forms and instructions), Bank Certifications, 1992 Budget Forms, and the State Aid application packets for Central Library Aid, Special Grants, State Correctional Facilities Aid and Coordinated Outreach Services Aid will be mailed to you by December 15 in a separate mailing.

Please be sure that system staff working with the member library report forms receive a copy of this memorandum, as copies were not included in the bulk mailing. If you have any questions, please contact Mrs. Pauline Kuzmak at 518-474-7890 on Monday, Tuesday or Wednesday between 8:30 am and 3:15 pm.

THE STATE EDUCATION DEPARTMENT / THE UNIVERSITY OF THE STATE OF NEW YORK / ALBANY, NY 12230

THE NEW YORK STATE LIBRARY
DIRECTOR, DIVISION OF LIBRARY DEVELOPMENT

November 1991

TO: Directors of Public Libraries

FROM: Roberta G. Cade, Director

SUBJECT: 1991 Annual Report Forms

Enclosed you will find the forms and instructions for the *1991 Annual Report for Public Libraries*. Please read the *INSTRUCTIONS* carefully before completing the forms as there have been changes since 1990. In particular, please note the instructions on page one for using the "Update Information Sheet." The questions on youth services, which were on a separate survey form for 1990, have been incorporated into the 1991 report form.

The definitions on pages one and two of the *INSTRUCTIONS* regarding the determination of 1990 population of charter service areas have been changed as follows:

POPULATION CHARTERED TO SERVE - The 1990 population of charter service areas of member libraries will be determined as follows:

Those libraries with charter service areas coterminous with political boundaries (village, town, city, county, or multiples of these units) will use the official population counts given in the Bureau of the Census, *1990 Census of Population and Housing, Summary Population and Housing Characteristics, New York, CPH-1-34*.

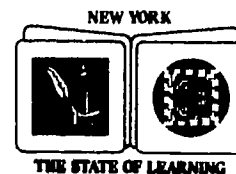

Those libraries with charter service areas which are not coterminous with political boundaries (village plus, special library district) will determine an appropriate 1990 population which will be acceptable both to the system director and the member library director.

Those libraries which serve a *school district* will use the school district population as prepared by the New York State Data Center, NYS Department of Commerce, using the *1990 Census of Population and Housing*. Updated school district populations for the 1990 Census are projected to be available by 1993. Until such data is available, a library which serves a school district may determine an appropriate 1990 population for the school district which will be acceptable both to the system director and the member library director.

Should any problem arise with this report form, personnel from your system headquarters will assist you. They will also give you the date by which your report should be at system headquarters.

I greatly appreciate your annual effort to supply us with accurate information about your library. This is used throughout the year in preparing budget justifications at the local and state levels, in making comparisons of public library services among the states, and as the basis for the payment of State Aid, including Local Library Incentive Aid. Your work in this report makes an important contribution in upgrading libraries nationwide. Thank you for your continuing cooperation.

INSTRUCTIONS
FOR THE
ANNUAL REPORT OF PUBLIC LIBRARIES
1991

Please read before filling out the
ANNUAL LIBRARY REPORT FORM

THE ANNUAL REPORT IS DUE IN ALBANY
FEBRUARY 3, 1992

INSTRUCTIONS

GENERAL

- I. Review data on the *Update Information Sheet* for accuracy and make necessary changes or corrections on the blank annual report form. **Be sure you return the *Update Information Sheet* with your Annual Report as all data is vital to library statistics.**
- II. To libraries which are members of a library system:

Fill out and return to your Library System Headquarters, by the date which the System designates, 2 copies of the ANNUAL LIBRARY REPORT (form with *Update Information Sheet* attached + one copy for System)(Pgs A1-A11, F1-F11).

Keep for your library's file, the report form stamped "This copy to be kept in your library". An additional copy is enclosed for a work sheet.
- III. To libraries not members of a library system.

Fill out and return to the Division of Library Development by FEBRUARY 3, 1992, in the enclosed addressed envelope, the "OFFICIAL COPY" of the ANNUAL LIBRARY REPORT (form with *Update Information Sheet* attached) (Pgs A1-A11, F1-F11).

Keep for your library's file, the report form stamped "This copy to be kept in your library". An additional copy is enclosed for a work sheet.
- IV. Please record data for all questions. Do not leave any item blank. If there is no activity, insert a 0.

PAGE A-1

COMMUNITY - the name of the village, town, or city in which the library is located.

NAME OF LIBRARY - as named on the library's charter.

STREET ADDRESS - the physical location of the library.

MAILING ADDRESS - be sure to include 9 digit zip code.

TELEPHONE NUMBER - the phone number of the library, including area code.

TELEFAX NUMBER - the phone number for telefacsimile messages.

POPULATION CHARTERED TO SERVE - use official population counts from the 1990 Bicentennial Census as prepared by New York State Department of Economic Development, State Data Center, March 1991.

A library which serves a SCHOOL DISTRICT must use the school district population as prepared by the New York State Data Center. Updated school district populations for the 1990 Census of Population are projected to be available from the New York State Data Center by 1993. Until such data is available, a library which serves a SCHOOL DISTRICT must use data prepared 5/14/84 using the 1980 CENSUS OF POPULATION AND HOUSING.

TYPE OF LIBRARY - as indicated on the library's charter.

AREA CHARTERED TO SERVE - as indicated on the library's charter.

DIRECTOR'S CERTIFICATION # - Check "yes" or "no". If "yes", include the Director's Certification number. Numbers are available from Library Development. A library serving a population of 7,500 or more is required to have a certified librarian on staff.

PUBLIC SERVICE OUTLETS - Report the number of Branches; the number of Deposit Stations and Reading Centers; and the number of Bookmobiles operated by the library.

FEDERAL EMPLOYER IDENTIFICATION NUMBER - the nine digit number assigned to library as an employer, by the Internal Revenue Service.

PAGE A-2

PUBLIC SERVICE HOURS Report daily service hours for the Main Library under Winter hours, reflecting the schedule followed during the majority of the weeks of the year. Also, report Summer hours.

Report weekly total service hours for the branches and bookmobiles during a typical week that all facilities are open for service (regardless of whether or not all facilities are open at the same time).

All libraries should be open on a 52 week basis. Libraries must be open at fixed times as follows (Commissioner Regulations 90.2):

POPULATION	MINIMUM WEEKLY STANDARD HOURS
1 - 499	6
500 - 2,499	12
2,500 - 4,999	18
5,000 - 24,999	30
25,000 - 99,999	45
100,000 - plus	60

These rules do not require any library to be open on legal holidays or Sundays.

INTERLIBRARY AND AGENCY COOPERATION

NUMBER OF MATERIALS BORROWED ON INTERLIBRARY LOAN

BY SPECIFIC REQUEST - materials borrowed to fill a specific title, author, or subject request (ie. loans received from other libraries or agencies).

BULK LOANS TO AUGMENT COLLECTION - materials borrowed from system to supplement library's holdings. These materials are not borrowed to fill a specific request. Include materials in rotating collections which automatically come to the library for a set loan period, such as 25 mystery stories, 30 sports books, etc.

NUMBER OF MATERIALS LOANED ON INTERLIBRARY LOAN - materials loaned by reporting library to the system, other libraries or agencies.

PHOTOCOPY mailed or transmitted to fill an interlibrary loan request is included within the count of the various types of material borrowed or loaned. For example, photocopy of an article found in a periodical counts as a periodical; photocopy of pages from a book counts as a book.

NUMBER OF INTERLIBRARY LOAN REQUESTS FORWARDED

TO SYSTEM - specific requests directed to system headquarters.

TO OTHER LIBRARIES OR AGENCIES - specific requests directed to other libraries or agencies other than system headquarters.

TOTAL - total number of interlibrary loan requests forwarded.

NUMBER OF INTERLIBRARY LOAN REQUESTS FILLED - How many of the interlibrary loan requests forwarded were filled from any source?

NUMBER OF INTERLIBRARY LOAN REQUESTS UNFILLED - How many of the interlibrary loan requests forwarded were unfilled?

TOTAL - total number of interlibrary loan requests filled and unfilled should equal total number of interlibrary loan requests forwarded.

PAGES A-3, A-4 AND A-5

LIBRARY HOLDINGS AND CIRCULATION

HOLDINGS - From the 1990 Annual Report, transfer "Holdings, December 31, 1990", of all types of materials to the 1991 Annual Report, under "Holdings, December 31, 1990". If for any reason the figures on the 1991 report differ from those on the 1990 report, please footnote and explain the difference. Figures may differ because a new inventory has been taken, because a mistake was made in last year's report, etc. Report "Additions" and "Withdrawals" made between January 1, 1991 and December 31, 1991, and "Holdings" as of 12-31-91 under appropriate headings.

CIRCULATION - Report Circulation between January 1, 1991 and December 31, 1991 for each category of holdings as indicated. Circulation for home use should be accurately recorded. Count one for each loan of book, serial, or nonbook item on the appropriate line under book stock, serials collection, nonbook materials, etc. An item renewed under library rules should be counted as an additional circulation. Items loaned to schools or other institutions for circulation by the school or institution are counted as one circulation per item (the initial loan to the school or institution). Items sent from one agency of a library to another, i.e., from main library to a branch, are not counted as circulation. Photocopies provided in lieu of circulation should also be included.

PAGE A-3

BOOK STOCK - A library's collection of books (including cataloged paperbound books and microform) and other materials which is prepared and recorded in the same manner as books. These books and materials must be cataloged and available for use. Foreign language books and books on rental shelves should be included in Adult (or Juvenile) Fiction or Nonfiction. Young Adult books should be included with the Adult collection.

Microfilm has been discontinued as a separate category in the Annual Report. Microform (microfilm, microcard, microfiche) is now included within the count of the various types of materials. For example, a microcopy of a volume of adult nonfiction is counted as a title and volume of Adult Nonfiction under Book Stock.

Documents which are fully cataloged and intershelved with books are counted as Book Stock.

Do not include bound periodicals in Book Stock.

Do not include uncataloged paperbound books in Book Stock.

TITLES - For this report, a title is a book holding for which a separate shelflist card has been made. Thus, six copies of the same edition of a book count as one title; two editions of the same title count as two titles; a set of six books which have been cataloged as separates count as six titles; a set of books (i.e., an encyclopedia)

cataloged as a set counts as one title; and two sets of the same edition cataloged as sets (i.e., two sets of Americana, 1972) count as one title. Enter the number of different titles held, added by purchases and gifts, and withdrawn.

A library which cannot easily count the number of shelflist cards (or physical items) in each category, may wish to establish a title count base in the following manner.

1. Count the number of titles in 1 inch of shelflist.
2. Repeat step 1 at random intervals throughout the shelflist.
3. Average the number of titles per inch.
4. Multiply the average titles per inch by the number of inches of cards in the shelflist.

After the base count is established make an actual count of titles added and withdrawn in subsequent years.

VOLUMES - Enter the number of volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of titles and the number of volumes in sets of books.

SERIALS COLLECTION - A serial is a publication, including microform and/or CDROM, issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies; they may include monographic and publishers' series. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. See also definitions of newspaper, periodical, serial, microform and government documents.

CURRENT SUBSCRIPTION TITLES - Enter the number of different subscription titles held as of December 31, 1991. Two subscriptions to the same serial count as one title.

BIBLIOGRAPHIC VOLUMES - A bibliographic volume is the unit established by the publisher as a volume. Enter the number of bibliographic volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of volumes, regardless of whether the material is bound, unbound, on microform or on CDROM.

OTHER SERIALS - Enter here the current subscription titles and bibliographic volumes for serials other than periodicals and newspapers (see definition of SERIALS COLLECTION above) held in a serials section of the library and not counted as Book Stock. Other Serials bought occasionally rather than on standing order and cataloged as Book Stock may be counted as Book Stock.

PAGE A-4

NONBOOK MATERIALS Those library materials which do not meet the definition of a book or a serial, such as audiovisual materials, vertical file materials, and any other material the form of which requires special handling.

AUDIOVISUAL MATERIALS - Nonbook library materials, such as films, filmstrips, slides, audio recordings (audiocassettes, audiodiscs, or audiotapes), video recordings (videocassettes, videodiscs or videotapes) which require the use of special equipment in order to be seen or heard. Include here audio recordings of spoken text not intended particularly for use by the print handicapped.

TITLES - Number of TITLES of films, filmstrips, slides, audio recordings and video recordings held in collection.

PHYSICAL ITEMS - Number of reels of film, filmstrips, slides, audio recordings and video recordings held in collection.

EXAMPLES: A set of 25 slides called ART WORKS IN THE NATIONAL MUSEUM would be counted as 25 Physical items and 1 Title.

A recording of CARMEN on three discs would be counted as 3 Physical items and 1 Title.

MATERIALS FOR THE PRINT HANDICAPPED - Includes talking books, Braille material, and other Materials for the Print Handicapped (to be specified). List only materials actually owned by library. Do not report material on loan or deposit. Report Large Type books in Book Stock. See definition of talking book and Braille material.

TITLES - Number of TITLES of audio recordings, Braille volumes, and other materials held in collection.

PHYSICAL ITEMS - Number of audio recordings, Braille volumes, and other materials held in collection.

PAGE A-5

OTHER NONBOOK MATERIALS - Includes pamphlets, documents, catalogs, manuscripts, sheet music, maps, pictures and photographs, framed pictures, microcomputer software, and other (to be specified by the library).

DOCUMENTS - Government documents held in a separate documents section of the library are counted as Documents. Documents which are fully cataloged and

intershelved with books are counted as Book Stock. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. Documents held in vertical files with other ephemera are counted as Pamphlets.

PAGE A-6

OFFICERS AND TRUSTEES

ADDRESS LISTING - Fill in information requested for all trustees and officers for calendar year 1992. The President of the board of trustees should be listed first.

TRUSTEES' MEETINGS - Specify the total number of trustees' meetings held during the 1991 calendar year. Education Law, section 260, requires that regular meetings of the board shall be held at least quarterly.

RECORD OF TRUSTEE ACTIONS - Indicate the latest year of formal trustee action on approval and/or amendment for each item. If no action has ever been taken, record a zero (0) in the "Year" column for that item. For the purposes of this report, formal trustee action is defined as an official vote of approval from the board of trustees.

PAGE A-7 and A-8

LIBRARY SERVICES

NOTE: If annual counts are available, please report them. Otherwise provide annual estimates based on a count taken during "a typical week". A typical week is a week in which the library is open its regular hours, containing no holidays. It is seven consecutive calendar days, from Sunday through Saturday, or whatever days the library is open during that period. It is recommended that libraries use the methods described in Output Measures for Public Libraries, 2nd edition (ALA, 1987) for counting attendance, in-library use and reference transactions. Please report all figures for the same week if possible. It is recommended that libraries take a count during a typical week in October. Brief instructions are listed below. If you have a typical week count, multiply the total by 52 weeks to report an annual count.

ATTENDANCE IN LIBRARY - Report the total number of persons entering the library between January 1, 1991 and December 31, 1991 including persons attending activities, meetings, and those persons requiring no staff services.

IN-LIBRARY USE OF LIBRARY MATERIALS - Report the total number of materials utilized in the library, but not checked out, between January 1, 1991 and December 31, 1991. Include reference books, periodicals, book stock, and all other library materials that are used **WITHIN** the library.

REFERENCE TRANSACTIONS - Report the total number of reference transactions completed by library staff between January 1, 1991 and December 31, 1991. See definition of reference transaction below.

REFERENCE TRANSACTION - A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include printed and non-printed materials, machine-readable data bases (including computer-assisted instruction), catalogs and other holdings records, and, through communication or referral, other libraries and institutions and persons both inside and outside the library. When a staff member utilizes information gained from previous use of information sources to answer a question, report as a reference transaction even if the source is not consulted again during this transaction.

Note: It is essential that libraries do not include directional transactions in the report of reference transactions. A directional transaction is an information contact which facilitates the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of any information sources other than those which describe that library, such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving instruction for locating, within the library, staff, library users, or physical features, etc., and giving assistance of a non-bibliographic nature with machines.

MICROCOMPUTER EQUIPMENT - Report quantity of microcomputer equipment in the library. Record the total number of microcomputers, modems, and printers. Of the total microcomputers, indicate how many are intended for use by the public for other than library functions (ie. do not count microcomputers used for accessing CDROM catalogs or databases, etc.). Count only those microcomputers which have 48K (kilobytes) or more of memory. Count microcomputer hardware in all facilities operated by the library (i.e. branches, bookmobiles, reading centers), whether owned, leased or on loan from another agency.

PROGRAM SESSIONS FOR CHILDREN AND YOUNG ADULTS: Use the library's definition of Children and Young Adults. Count each session in a series of programs; e.g., a 6-week storytime series would be 6 sessions. Count each program session held as part of a summer reading program. If a summer reading club is sponsored but no individual programs are held, count it as 1 session.

PROGRAM ATTENDANCE FOR CHILDREN AND YOUNG ADULTS: Count attendance at each session in a series of programs, even if it is the same group. If a summer reading club is sponsored but no individual programs are held, count the total number of children and young adults signed up. Count adults who attend children's and young adult programs.

PAGE A-9 and A-10

LIBRARY PERSONNEL - 1991

NOTE: The library personnel breakdown requires conversion of part-time hours to full-time equivalents, or FTE's. For the purposes of this report, public libraries may determine the number of hours per work week they consider to be full-time (the National Center for Education Statistics recommends use of 40 hours per work week to ensure comparable data). Please record in P1 the number of hours per work week used to compute FTE for all Library Personnel for the purposes of this report. Examples of FTE conversion include:

- a. A part-time employee who works 20 hours per week in a library having a 40-hour work week is computed as follows: 20 divided by 40 equals .5 FTE. The library would record 40 hours per week in P1.
- b. A part-time employee who works 20 hours per week in a library having a 30-hour work week is computed as follows: 20 divided by 30 equals .7 FTE. The library would record 30 hours per week in P1.
- c. An employee who works in a library on a full-time basis 40 hours a week during one half of the fiscal year would be counted as one part-time employee in Column 3 and .5 FTE in Column 4. The library would record 40 hours per week in P1.

Column 1 - 1991 FTE Positions Budgeted. Give the number of positions budgeted in full-time equivalents (FTE). Show to one decimal place.

Column 2 - As of 12/31/91 show the number of females and males in full-time filled positions in the series.

Column 3 - As of 12/31/91 show the number of females and males in part-time filled positions in the series.

Column 4 - Convert the figures of Column 3 into full-time equivalents (FTE). Show to one decimal place.

Column 5 - The sum of Column 2 (full-time females plus full-time males) and Column 4 (full-time equivalents (FTE) of part-time females plus FTE part-time males).

SALARY RANGE - Record the library's beginning salary and maximum salary for each title in 1991.

LIBRARY PERSONNEL

Please record in P1 the number of hours per work week used to compute FTE (Full-Time Equivalent) for all Library Personnel for Col. 1, Col. 4 and Col. 5. Refer to the instructions, page 9 for examples of how to compute FTE.

LIBRARIAN SERIES

Personnel listed in this series must be persons holding a New York State Public Librarian's Certificate and/or holding a master's degree from a program accredited by the American Library Association. Titles listed are those found in *NYLA Typical Class Specifications for Professional Positions in Public Libraries Under Civil Service* (Revised February 1974), and are for persons holding a New York State Public Librarian's Certificate, whether provisional or permanent, and performing professional duties.

OTHER PERSONNEL SERIES

Library Technician Series

Personnel listed in the Library Technician series usually do work that requires professional training and skill in the theoretical or scientific aspects of library work. Library technicians may be performing professional duties, but they do not hold a New York State Public Librarian's Certificate and/or a master's degree from a program accredited by the American Library Association. A Library Director that does not hold a Public Librarian's Certificate should be listed under "Library Director" in this series. Please specify "Other" titles. Use additional sheets as necessary.

Personnel listed in the series following the Library Technician Series are the people who support in various capacities, the librarians and library technicians on the staff. According to the National Center for Education Statistics, a librarian is "a staff member doing work that requires professional training and skill in the theoretical and/or scientific aspects of library work, or both, as distinct from its mechanical or clerical aspects". Other staff members, therefore, should be listed in the support series. For titles not listed, please specify under "other". Use additional sheets as necessary.

Clerical Staff Series

Titles listed are those found in *NYLA Typical Class Specifications for Clerical & Supportive Staff Positions in Public & School Libraries Under Civil Service* (Revised November 1975). For civil service clerical titles not in the library series, such as secretary, stenographer, driver, film inspector, AV technician, etc. please specify under "other".

Other Support Staff

List other staff positions which do not fall under librarian, library technician, clerical series or building maintenance and operation. Some examples are: systems analyst, programmer, business manager, public relations person, accountant, secretary, driver, AV technician, counselor, etc.

Bindery Staff

Libraries which maintain a bindery should list the bindery staff.

Building Maintenance and Operation Staff

List all custodial staff, building guards, etc.

Volunteers

List total number of volunteers working on a scheduled basis.

PAGE A-11

ADDITIONAL PERSONNEL DATA

HOURS AND SALARIES

For question 1, if the library does not employ any full-time certified librarians with an MLS, insert a zero (0) in HS2.

For questions 2 and 4, report in HS3 and HS5 the number of hours the library director works for a typical work week. A typical week is a week in which the library is open its regular hours, containing no holidays. Include all hours the Library Director works, even if the library is not open to the public.

Example: Library A is open to the public 30 hours a week. In addition to working those 30 hours, the Library Director also works 8 hours a week when the library is closed to the public. The Library Director in Library A works 38 hours a week.

For questions 3 and 5, if there is no set "annual" salary figure for the Library Director, then multiply the hourly salary by the number of hours worked in a typical week by 52 weeks.

Example: In 1991, the director of Library B made \$12.00 an hour and worked 25 hours a week. The 1991 current annual salary is ($\$12.00 \times 25 \times 52$) or \$15,600.

PAGES F-1 THROUGH F-11

Refer to instructions on pages 16 through 30.

GLOSSARY OF SELECTED TERMS

AUDIOVISUAL MATERIALS Nonbook library materials, such as recordings, transparencies, tapes, slides, films, and filmstrips, which require the use of special equipment in order to be seen or heard.

BIBLIOGRAPHIC VOLUME A unit of publication distinguished from other units by having its own title page, half title, cover title or portfolio title. In connection with periodicals, the publisher's volume.

BOOK A unit of publication, either bibliographically independent or a volume in a series published under the same title, consisting of leaves, sheets, or signatures sewn or otherwise bound together, covered or uncovered. Bound volumes of periodicals and newspapers are not considered books.

BRAILLE MATERIAL The library material for the visually handicapped using a system of raised dots representing letters and numerals.

CATALOGED MATERIAL Any library material which has been identified in a catalog which records, describes, and indexes the resources of a library; as distinct from library materials which are merely physically arranged for use and are not indexed and described individually by item.

CIRCULATION The activity of a library in lending its resources to borrowers. For statistical purposes, photocopies provided in lieu of circulation should also be included. Count one for each loan of a book, serial, or nonbook item.

GOVERNMENT DOCUMENT Any publication in book, serial, or nonbook form bearing a government imprint, e.g., the publications of Federal, state, local, and foreign governments and of world organizations, such as United Nations, European Common Market, etc. Government documents held in a separate documents section of the library are counted as Documents. Documents which are fully cataloged and intershelved with books are counted as Book Stock. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. Documents held in vertical files with other ephemera are counted as Pamphlets.

INTERLIBRARY LOANS Library materials, or copies of the materials, made available by one library to another upon request. It includes both lending and borrowing. The libraries involved in interlibrary loan are not under the same library administration.

MICROCARD An opaque card containing images photographically reduced to a size too small to be read without magnification.

MICROCOMPUTER A computer containing a central processing unit on one or a few chips, often acquired for personal use.

MICROCOMPUTER SOFTWARE A sequence of machine-readable instructions by which a microcomputer executes a desired task.

MICROFICHE A microfilm sheet containing multiple images in a grid pattern.

MICROFILM A strip of film containing photographic images usually too small to be read without magnification. Microfilm has been discontinued as a separate category in the annual report.

MICROFORM Any library material which has been photographically reduced in size for storage and protection purposes, and which must be read with the help of enlarging instruments. Microform is now included within the count of the various types of materials such as books or periodicals. For example, a microcopy of a volume of adult nonfiction is counted as a title and volume of Adult Nonfiction under Book Stock.

NEWSPAPER A serial publication issued at stated and frequent intervals (usually daily, weekly, or semiweekly), which reports events and discusses topics of current interest, and is usually a "primary source" of information to its readers.

NONBOOK MATERIALS Those library materials which do not meet the definition of a book or periodical, such as, audiovisual materials; vertical file materials and similar items which are not individually cataloged; and any other material the form of which requires special handling.

PERIODICAL A serial publication which constitutes one issue in a continuous series under the same title, usually published at regular intervals over an indefinite period, individual issues in the series being numbered consecutively or each issue being dated.

PUBLIC SERVICE OUTLET A location where library materials and services are made available to the library's clientele, e.g., a Member Library, a Registered or Unregistered Branch, a Deposit Station, a Reading Center, or a Mobile Unit.

REFERENCE TRANSACTION A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff.

SERIAL A publication issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies; they may include monographic and publishers' series.

TALKING BOOK A spoken text recorded on either an audiotape or an audiodisc intended particularly for use by the print handicapped.

TITLE A term used to designate a printed publication which forms a separate whole, whether issued in one or several volumes. A title is a holding for which a separate shelflist card has been made.

VIDEOCASSETTE A permanently encased videotape that winds and rewinds from reel to reel.

VIDEODISC A disc, usually plastic, on which are recorded video or audio signals, or both. Some videodiscs are digitally recorded and used in computer recording and playback systems. Others are nondigital and are used for listening and viewing.

VOLUME For statistical purposes, a volume is a physical unit of any printed, typewritten, handwritten, mimeographed, or processed work contained in one binding or portfolio, hardbound or paperbound, which has been cataloged, classified, and/or made ready for use.

Where a public library or public library system has contracts with other public libraries or public library systems, the money involved as a receipt (Codes L2080 and 010) or disbursement (Code L7410.436) must be reported on this page, designating by name the second party. This code applies to New York State chartered public libraries or public library systems only.

APPENDIX II

ANNUAL REPORT FORMS AND INSTRUCTIONS, PUBLIC LIBRARY SYSTEMS

THE STATE EDUCATION DEPARTMENT / THE UNIVERSITY OF THE STATE OF NEW YORK / ALBANY, N.Y. 12230

THE NEW YORK STATE LIBRARY
DIRECTOR, DIVISION OF LIBRARY DEVELOPMENT

December 1991

TO: Directors of Public Library Systems

FROM: 
Roberta G. Cade, Director

SUBJECT: 1991 Annual Report of Public Library Systems
1992 Budget forms
1991 State Aid Applications
Central Library Development Aid & Central Book Aid
Special Grants (Buffalo, Brooklyn, Nassau)
Coordinated Outreach Services
State Operated Correctional Facilities

Enclosed you will find the instructions and all forms necessary for the completion of the 1991 Annual Report of Public Library Systems and the 1992 Budget. Please read the instructions carefully before completing the forms as there have been some changes since 1990.

Please return the following items by February 3, 1992, to the Division of Library Development, New York State Library, Room 10B41, Cultural Education Center, Empire State Plaza, Albany, New York 12230:

- o one completed 1991 Annual Report
- o one completed Bank Certification for each bank account
- o one completed 1992 Budget

Please be sure that each report sent to Library Development has original signatures, as the Department of Audit and Control will not accept photocopied signatures. The extra copies of the Annual Report and Budget are your work and file copies.

POPULATION CHARTERED TO SERVE - The 1990 population of charter service areas of member libraries will be determined as follows:

Those libraries with charter service areas coterminous with political boundaries (village, town, city, county, or multiples of these units) will use the official population counts given in the Bureau of the Census, *1990 Census of Population and Housing, Summary Population and Housing Characteristics, New York, CPH-1-34*.

Those libraries with charter service areas which are not coterminous with political boundaries (village plus, special library district) will determine an appropriate 1990 population which will be acceptable both to the system director and the member library director.

Those libraries which serve a *school district* will use the school district population as prepared by the New York State Data Center, NYS Department of Commerce, using the *1990 Census of Population and Housing*. Updated school district populations for the 1990 Census are projected to be available by 1993. Until such data is available, a library which serves a school district may determine an appropriate 1990 population for the school district which will be acceptable both to the system director and the member library director.

The total of populations of charter service areas of a county may not exceed the 1990 official county population except in those rare instances where there are overlapping service areas. All per capita State aid will be paid to systems based on county final counts in the *1990 Census of Population and Housing, Summary Population and Housing Characteristics, New York, CPH-1-34*. Any per capita system cash grants paid to member libraries will be determined internally by negotiation between the system headquarters and the membership.

The Annual Reports should be submitted without delay, as they are the official source of figures for State Aid payments. Without your assistance in checking member reports, our limited staff would be completely overwhelmed with verification problems. Please accept our thanks for this cooperative annual task.

With this envelope of 1991 Annual Report forms and instructions, we are enclosing in separate envelopes, with covering memos, application forms for State Aid for 1992 in special categories: Central Library Development and Central Book Aid; Special Grants (Buffalo, Brooklyn, Nassau); Coordinated Outreach Services; State Operated Correctional Facilities.

If you have any questions, please contact your regional consultant at (518) 474-6971 or 474-7890.

INSTRUCTIONS FOR THE ANNUAL REPORT
FOR
PUBLIC LIBRARY SYSTEMS - 1991

GENERAL

This annual report is to be returned to Library Development by February 3, 1992.

The system report covers the activities of the system only. In the printed statistical report for 1991 the individual annual reports of the member libraries of federated or cooperative systems will be consolidated and reported by system.

Systems may find some parts of the report not applicable. Please complete as much as possible.

PAGE A-1

STREET AND MAILING ADDRESS - Be sure to include 9 digit Zip Code. Review data on address label for accuracy and make necessary changes.

TELEPHONE NUMBER - the phone number of the library system, including area code.

TELEFAX NUMBER - the phone number for telefacsimile messages.

POPULATION CHARTERED TO SERVE - Use official population counts given in the Bureau of the Census, *1990 Census of Population and Housing, Summary Population and Housing Characteristics, New York, CPH-1-34*, issued by U.S. Department of Commerce Bureau of the Census.

AREA CHARTERED TO SERVE - Use Final Square Mile Count Issued March 1991 by U.S. Department of Commerce, Bureau of the Census.

COUNTY(IES) SERVED BY SYSTEM - Report name(s) of county(ies) served.

DIRECTOR CERTIFICATION - Check "yes" or "no". If "yes", include the Director's Certification number. Numbers are available from Library Development.

PUBLIC SERVICE OUTLETS - Report the number of chartered units which are members of Cooperative or Federated Library Systems as of December 31, 1991.

OTHER OUTLETS OPERATED BY THE SYSTEM - Report all other outlets operated by the SYSTEM, including the number of Branches, the number of Deposit Stations and Reading Centers, and the number of Bookmobiles.

FEDERAL EMPLOYER IDENTIFICATION NUMBER - the nine digit number assigned to the library system as an employer, by the Internal Revenue Service.

PAGE A-2

PUBLIC SERVICE HOURS - ALL systems which provide direct service to the public should fill in PUBLIC SERVICE HOURS. Report daily service hours for the Main Library or System Headquarters under "Winter" hours, reflecting the schedule followed during the majority of the weeks of the year. Also report "Summer" hours.

Report weekly total service hours for the branches and bookmobiles during a typical week that all facilities are open for service (regardless of whether or not all facilities are open at the same time).

CENTRAL/COCENTRAL LIBRARY - A central library is the library in the system which has been designated in the system plan as the central library.

HOLDINGS OF ADULT NONFICTION FOR CENTRAL/COCENTRAL LIBRARY

Central Library - Record the number of Adult Nonfiction volumes (not titles) in the collection, purchased with other than State funds.

System CBA - Cumulative number of volumes added since the beginning of the Central Book Aid program.

PAGE A-3

SYSTEM HOLDINGS AND CIRCULATION

HOLDINGS - Library materials to which the system retains title and which are not reported by a member library. This should include all materials given to the system under the Central Book Aid (CBA) program. This may also include materials secured through Federal programs such as LSCA and ESEA.

From the 1990 Annual Report, transfer "Holdings, December 31, 1990", of all types of materials to the 1991 Annual Report, under "Holdings, December 31, 1990". If for any reason the figures on the 1991 report differ from those on the 1990 report, please footnote and explain the difference. Figures may differ because a new inventory has been taken, because a mistake was made in last year's report, etc. Report "Additions" and "Withdrawals" made between January 1, 1991 and December 31, 1991, and "Holdings" as of 12-31-91 under appropriate headings.

CIRCULATION - Report direct circulation to system headquarters staff and to patrons handled by the system. Do not include here materials sent to member libraries. Member library information is recorded on page A-6.

BOOK STOCK - The system's collection of books (including paperbound books and microform) and other materials which are prepared and recorded in the same manner as books. These books and materials must be cataloged and available for use. Foreign language books and books on rental shelves should be included in Adult (or Juvenile) Fiction or Nonfiction. Young Adult books should be included with the Adult collection.

Microfilm has been discontinued as a separate category in the Annual Report. Microform (microfilm, microcard, microfiche) is now included within the count of the various types of materials. For example, a microcopy of a volume of adult nonfiction is counted as a title and volume of Adult Nonfiction under Book Stock.

Documents which are fully cataloged and intershelved with books are counted as Book Stock.

Do not include bound periodicals in Book Stock.

Do not include uncataloged paperbound books in Book Stock.

TITLES - For this report, a title is a book holding for which a separate shelflist card has been made. Thus, six copies of the same edition of a book count as one title; two editions of the same title count as two titles; a set of six books which have been cataloged as separates count as six titles; a set of books (i.e., an encyclopedia) cataloged as a set counts as one title; and two sets of the same edition cataloged as sets (i.e., two sets of Americana, 1972) count as one title. Enter the number of different titles held, added by purchases and gifts, and withdrawn.

A library which cannot easily count the number of shelflist cards (or physical items) in each category, may wish to establish a title count base in the following manner.

1. Count the number of titles in 1 inch of shelflist.
2. Repeat step 1 at random intervals throughout the shelflist.
3. Average the number of titles per inch.
4. Multiply the average titles per inch by the number of inches of cards in the shelflist.

After the base count is established make an actual count of titles added and withdrawn in subsequent years.

VOLUMES - Enter the number of volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of titles and the number of volumes in sets of books.

SERIALS COLLECTION - A serial is a publication, including microform and/or CDROM, issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies; they may include monographic and publishers' series. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. See also definitions of newspaper, periodical, serial, microform and government documents.

CURRENT SUBSCRIPTION TITLES - Enter the number of different subscription titles held as of December 31, 1991. Two subscriptions to the same serial count as one title.

BIBLIOGRAPHIC VOLUMES - A bibliographic volume is the unit established by the publisher as a volume. Enter the number of bibliographic volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of volumes, regardless of whether the material is bound, unbound, on microform or on CDROM.

OTHER SERIALS - Enter here the current subscription titles and bibliographic volumes for serials other than periodicals and newspapers (see definition of SERIALS COLLECTION) held in a serials section of the library and not counted as Book Stock. Other Serials bought occasionally rather than on standing order and cataloged as Book Stock may be counted as Book Stock.

PAGE A-4

NONBOOK MATERIALS - Those system materials which do not meet the definition of a book or a serial, such as audiovisual materials, vertical file materials, and any other material the form of which requires special handling. Include items purchased with CENTRAL BOOK AID.

AUDIOVISUAL MATERIALS - Nonbook library materials, such as films, filmstrips, slides, audio recordings (audiocassettes, audiodiscs, or audiotapes), video recordings (videocassettes, videodiscs or videotapes) which require the use of special equipment in order to be seen or heard. Include here audio recordings of spoken text not intended particularly for use by the print handicapped.

TITLES - Number of TITLES of films, filmstrips, slides, audio recordings and video recordings held in collection.

PHYSICAL ITEMS - Number of reels of film, filmstrips, slides, audio recordings and video recordings held in collection.

EXAMPLES:

A set of 25 slides called ART WORKS IN THE NATIONAL MUSEUM would be counted as 25 Physical items and 1 Title.

A recording of CARMEN on three discs would be counted as 3 Physical items and 1 Title.

MATERIALS FOR THE PRINT HANDICAPPED - Includes talking books, Braille material, and other Materials for the Print Handicapped (to be specified). List only materials actually owned by the system. Do not report material on loan or deposit. Report Large Type books in Book Stock. See definition of talking book and Braille material.

TITLES - Number of TITLES of audio recordings, Braille volumes, and other materials held in collection.

PHYSICAL ITEMS - Number of audio recordings, Braille volumes, and other materials held in collection.

BEST COPY AVAILABLE

PAGE A-5

OTHER NONBOOK MATERIALS - Includes pamphlets, documents, catalogs, manuscripts, sheet music, maps, pictures and photographs, framed pictures, microcomputer software, and other (to be specified).

DOCUMENTS - Government documents held in a separate documents section of the library are counted as Documents. Documents which are fully cataloged and intershelved with books are counted as Book Stock. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. Documents held in vertical files with other ephemera are counted as Pamphlets.

PAGE A-6

INTERLIBRARY LOAN

INTERLIBRARY LOAN MATERIALS BORROWED FOR SYSTEM PATRONS should be used to record materials borrowed by the system, as the result of a specific author, title, or subject request, for use by the system headquarters staff or for patrons handled by the system. Include materials borrowed for branches. Do not include materials borrowed for member libraries.

INTERLIBRARY LOAN MATERIALS LOANED TO MEMBER LIBRARIES should be used to record materials sent to member libraries as the result of a specific author, title, or subject request made by an individual patron. Do not include rotating collections as a part of these figures. Do not include materials loaned to branches.

INTERLIBRARY LOAN MATERIALS LOANED TO OTHER AGENCIES should be used to record intersystem requests for materials sent to other agencies outside of the system (i.e. other systems, other libraries) as the result of a specific author, title or subject request from that agency.

SPECIAL INSTRUCTIONS FOR BROOKLYN, BUFFALO & ERIE, NEW YORK BRANCH AND RESEARCH, ONONDAGA AND QUEENS PUBLIC LIBRARIES

Include in "Materials Borrowed For System Patrons" column, materials for Central Library and branch library patrons, as well as for System patrons.

Include in the "From System Headquarters Collections" columns (codes mc through MP), materials loaned to member libraries and to other agencies from the Central Library, branch libraries, and the System Headquarters collections total. Leave the Central Library column blank.

PAGE A-7

OFFICERS AND TRUSTEES

ADDRESS LISTING - Fill in information requested for all trustees and officers for calendar year 1992. The President of the board of trustees should be listed first.

TRUSTEES' MEETINGS - Specify the total number of trustees' meetings held during the 1991 calendar year. Education Law, section 260, requires that regular meetings of the board shall be held at least quarterly.

RECORD OF TRUSTEE ACTIONS - Indicate the latest year of formal trustee action on approval and/or amendment for each item. If no action has ever been taken, record a zero (0) in the "Year" column for that item. For the purposes of this report, formal trustee action is defined as an official vote of approval from the board of trustees.

PAGE A-8 and A-9

LIBRARY SERVICES

All systems which provide direct service to the public should reply to all questions.

NOTE: If annual counts are available, please report them. Otherwise provide annual estimates based on a count taken during "a typical week". A typical week is a week in which the library is open its regular hours, containing no holidays. It is seven consecutive calendar days, from Sunday through Saturday, or whatever days the library is open during that period. It is recommended that libraries use the methods described in Output Measures for Public Libraries, 2nd edition (ALA, 1987) for counting attendance, in-library use and reference transactions. Please report all figures for the same week if possible. It is recommended that libraries take a count during a typical week in October. Brief instructions are listed below. If you have a typical week count, multiply the total by 52 weeks to report an annual count.

ATTENDANCE IN LIBRARY - Report the total number of persons entering the library between January 1, 1991 and December 31, 1991 including persons attending activities, meetings, and those persons requiring no staff services.

IN-LIBRARY USE OF LIBRARY MATERIALS - Report the total number of materials utilized in the library, but not checked out, between January 1, 1991 and December 31, 1991. Include reference books, periodicals, book stock, and all other library materials that are used WITHIN the library.

REFERENCE TRANSACTIONS - Report the total number of reference transactions completed by library staff between January 1, 1991 and December 31, 1991. See definition of reference transaction.

REFERENCE TRANSACTION - A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include printed and non-printed materials, machine-readable data bases (including computer-assisted instruction), catalogs and other holdings records, and, through communication or referral, other libraries and institutions and persons both inside and outside the library. When a staff member utilizes information gained from previous use of information sources to answer a question, report as a reference transaction even if the source is not consulted again during this transaction.

Note: It is essential that libraries do not include directional transactions in the report of reference transactions. A directional transaction is an information contact which facilitates the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of any information sources other than those which describe that library, such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving instruction for locating, within the library, staff, library users, or physical features, etc., and giving assistance of a non-bibliographic nature with machines.

MICROCOMPUTER EQUIPMENT - Report quantity of microcomputer equipment in the library. Record the total number of microcomputers, modems, and printers. Of the total microcomputers, indicate how many are intended for use by the public for other than library functions (i.e. do not count microcomputers used for accessing CDROM catalogs or databases, etc.). Count only those microcomputers which have 48K (kilobytes) or more of memory. Count microcomputer hardware in all facilities operated by the library (i.e. branches, bookmobiles, reading centers), whether owned, leased or on loan from another agency.

PROGRAM SESSIONS FOR CHILDREN AND YOUNG ADULTS: Use the library's definition of Children and Young Adults. Count each session in a series of programs; e.g., a 6-week storytime series would be 6 sessions. Count each program session held as part of a summer reading program. If a summer reading club is sponsored but no individual programs are held, count it as 1 session.

PROGRAM ATTENDANCE FOR CHILDREN AND YOUNG ADULTS: Count attendance at each session in a series of programs, even if it is the same group. If a summer reading club is sponsored but no individual programs are held, count the total number of children and young adults signed up. Count adults who attend children's and young adult programs.

PAGE A-10 AND A-11

LIBRARY PERSONNEL - 1991

NOTE: The library personnel breakdown requires conversion of part-time hours to full-time equivalents, or FTE's. For the purposes of this report, public libraries may determine the number of hours per work week they consider to be full-time (the National Center for Education Statistics recommends use of 40 hours per work week to ensure comparable data). Please record in P1 the number of hours per work week used to compute FTE for all Library Personnel for the purposes of this report. Examples of FTE conversion include:

- a. A part-time employee who works 20 hours per week in a library having a 40-hour work week is computed as follows: 20 divided by 40 equals .5 FTE. The library would record 40 hours per week in P1.
- b. A part-time employee who works 20 hours per week in a library having a 30-hour work week is computed as follows: 20 divided by 30 equals .7 FTE. The library would record 30 hours per week in P1.
- c. An employee who works in a library on a full-time basis 40 hours a week during one half of the fiscal year would be counted as one part-time employee in Column 3 and .5 FTE in Column 4. The library would record 40 hours per week in P1.

Column 5 - The sum of Column 2 (full-time females plus full-time males) and Column 4 (full-time equivalents (FTE) of part-time females plus FTE part-time males).

SALARY RANGE - Record the library's beginning salary and maximum salary for each title in 1991.

LIBRARIAN SERIES

Personnel listed in this series must be persons holding a New York State Public Librarian's Certificate and/or holding a master's degree from a program accredited by the American Library Association. Titles listed are those found in *NYLA Typical Class Specifications for Professional Positions in Public Libraries Under Civil Service* (Revised February 1974), and

are for persons holding a New York State Public Librarian's Certificate, whether provisional or permanent, and performing professional duties.

OTHER PERSONNEL SERIES

Library Technician Series

Personnel listed in the Library Technician series usually do work that requires professional training and skill in the theoretical or scientific aspects of library work. Library technicians may be performing professional duties, but they do not hold a New York State Public Librarian's Certificate and/or a master's degree from a program accredited by the American Library Association. A Library Director that does not hold a Public Librarian's Certificate should be listed under "Library Director" in this series. Please specify "Other" titles. Use additional sheets as necessary.

Personnel listed in the series following the Library Technician Series are the people who support in various capacities, the librarians and library technicians on the staff. According to the National Center for Education Statistics, a librarian is "a staff member doing work that requires professional training and skill in the theoretical and/or scientific aspects of library work, or both, as distinct from its mechanical or clerical aspects". Other staff members, therefore, should be listed in the support series. For titles not listed, please specify under "other". Use additional sheets as necessary.

Clerical Staff Series

Titles listed are those found in *NYLA Typical Class Specifications for Clerical & Supportive Staff Positions in Public & School Libraries Under Civil Service* (Revised November 1975). For civil service clerical titles not in the library series, such as secretary, stenographer, driver, film inspector, AV technician, etc. please specify under "other".

Other Support Staff

List other staff positions which do not fall under librarian, library technician, clerical series or building maintenance and operation. Some examples are: systems analyst, programmer, business manager, public relations person, accountant, secretary, driver, AV technician, counselor, etc.

Bindery Staff

Libraries which maintain a bindery should list the bindery staff.

Building Maintenance and Operation Staff

List all custodial staff, building guards, etc.

Volunteers

List total number of volunteers working on a scheduled basis.

LIBRARY PERSONNEL

Please record in P-1 the number of hours per work week used to compute FTE (Full-Time Equivalent) for all Library Personnel for Col. 1, Col. 4 and Col. 5.

P-1 40 hours

Refer to the instructions, page 8 for examples of how to compute FTE.

ADDITIONAL PERSONNEL DATA

HOURS AND SALARIES

For question 1, if the library does not employ any full-time certified librarians with an MLS, insert a zero (0) in HS2.

For questions 2 and 4, report in HS3 and HS5 the number of hours the library director works for a typical work week. A typical week is a week in which the library is open its regular hours, containing no holidays. Include all hours the Library Director works, even if the library is not open to the public.

Example: Library A is open to the public 30 hours a week. In addition to working those 30 hours, the Library Director also works 8 hours a week when the library is closed to the public. The Library Director in Library A works 38 hours a week.

For questions 3 and 5, if there is no set "annual" salary figure for the Library Director, then multiply the hourly salary by the number of hours worked in a typical week by 52 weeks.

Example: In 1991, the director of Library B made \$12.00 an hour and worked 25 hours a week. The 1991 current annual salary is ($\$12.00 \times 25 \times 52$) or \$15,600.

PAGES F-1 THROUGH F-11

Refer to instructions on pages 15 through 29.

GLOSSARY OF SELECTED TERMS

AUDIOVISUAL MATERIALS Nonbook library materials, such as recordings, transparencies, tapes, slides, films, and filmstrips, which require the use of special equipment in order to be seen or heard.

BIBLIOGRAPHIC VOLUME A unit of publication distinguished from other units by having its own title page, half title, cover title or portfolio title. In connection with periodicals, the publisher's volume.

BOOK A unit of publication, either bibliographically independent or a volume in a series published under the same title, consisting of leaves, sheets, or signatures sewn or otherwise bound together, covered or uncovered. Bound volumes of periodicals and newspapers are not considered books.

BRaille MATERIAL The library material for the visually handicapped using a system of raised dots representing letters and numerals.

CATALOGED MATERIAL Any library material which has been identified in a catalog which records, describes, and indexes the resources of a library; as distinct from library materials which are merely physically arranged for use and are not indexed and described individually by item.

CIRCULATION The activity of a library in lending its resources to borrowers. For statistical purposes, photocopies provided in lieu of circulation should also be included. Count one for each loan of a book, serial, or nonbook item.

GOVERNMENT DOCUMENT Any publication in book, serial, or nonbook form bearing a government imprint, e.g., the publications of Federal, state, local, and foreign governments and of world organizations, such as United Nations, European Common Market, etc. Government documents held in a separate documents section of the library are counted as Documents. Documents which are fully cataloged and intershelved with books are counted as Book Stock. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. Documents held in vertical files with other ephemera are counted as Pamphlets.

INTERLIBRARY LOANS Library materials, or copies of the materials, made available by one library to another upon request. It includes both lending and borrowing. The libraries involved in interlibrary loan are not under the same library administration.

MICROCARD An opaque card containing images photographically reduced to a size too small to be read without magnification.

MICROCOMPUTER A computer containing a central processing unit on one or a few chips, often acquired for personal use.

MICROCOMPUTER SOFTWARE A sequence of machine-readable instructions by which a microcomputer executes a desired task.

MICROFICHE A microfilm sheet containing multiple images in a grid pattern.

MICROFILM A strip of film containing photographic images usually too small to be read without magnification. Microfilm has been discontinued as a separate category in the annual report.

MICROFORM Any library material which has been photographically reduced in size for storage and protection purposes, and which must be read with the help of enlarging instruments. Microform is now included within the count of the various types of materials such as books or periodicals. For example, a microcopy of a volume of adult nonfiction is counted as a title and volume of Adult Nonfiction under Book Stock.

NEWSPAPER A serial publication issued at stated and frequent intervals (usually daily, weekly, or semiweekly), which reports events and discusses topics of current interest, and is usually a "primary source" of information to its readers.

NONBOOK MATERIALS Those library materials which do not meet the definition of a book or periodical, such as, audiovisual materials; vertical file materials and similar items which are not individually cataloged; and any other material the form of which requires special handling.

PERIODICAL A serial publication which constitutes one issue in a continuous series under the same title, usually published at regular intervals over an indefinite period, individual issues in the series being numbered consecutively or each issue being dated.

PUBLIC SERVICE OUTLET A location where library materials and services are made available to the library's clientele, e.g., a Member Library, a Registered or Unregistered Branch, a Deposit Station, a Reading Center, or a Mobile Unit.

REFERENCE TRANSACTION A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff.

SERIAL A publication issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies; they may include monographic and publishers' series.

TALKING BOOK A spoken text recorded on either an audiotape or an audiodisc intended particularly for use by the print handicapped.

TITLE A term used to designate a printed publication which forms a separate whole, whether issued in one or several volumes. A title is a holding for which a separate shelflist card has been made.

VIDEOCASSETTE A permanently encased videotape that winds and rewinds from reel to reel.

VIDEODISC A disc, usually plastic, on which are recorded video or audio signals, or both. Some videodiscs are digitally recorded and used in computer recording and playback systems. Others are nondigital and are used for listening and viewing.

VOLUME For statistical purposes, a volume is a physical unit of any printed, typewritten, handwritten, mimeographed, or processed work contained in one binding or portfolio, hardbound or paperbound, which has been cataloged, classified, and/or made ready for use.

OPERATING FUND REPORT - 1991
LIBRARIES AND LIBRARY SYSTEMS

The Operating Fund Report and the Capital Fund Report are to be used by libraries and library systems in reporting fiscal matters for the calendar year just completed.
